**IFRA Conformity Certificate for Lavender 50/52 High Altitude**

We certify that the above material complies with the Standards of the International Fragrance Association (IFRA), amendment 48, published in June 2015, provided it is used in the following classes at a maximum concentration level of:

| <b>Combined IFRA Category</b> | <b>Maximum Level of Use (% w/w)</b> |
|-------------------------------|-------------------------------------|
| Class 1.A                     | 19.97                               |
| Class 1.B                     | 19.97                               |
| Class 2                       | 19.97                               |
| Class 3.A                     | 59.89                               |
| Class 3.B                     | 59.89                               |
| Class 3.C                     | 59.89                               |
| Class 3.D                     | 59.89                               |
| Class 4.A                     | 59.89                               |
| Class 4.B                     | 59.89                               |
| Class 4.C                     | 59.89                               |
| Class 4.D                     | 59.89                               |
| Class 5                       | 59.89                               |
| Class 6                       | 100.00                              |
| Class 7.A                     | 59.89                               |
| Class 7.B                     | 59.89                               |
| Class 8.A                     | 59.89                               |
| Class 8.B                     | 59.89                               |
| Class 9.A                     | 59.89                               |
| Class 9.B                     | 59.89                               |
| Class 9.C                     | 59.89                               |
| Class 10.A                    | 59.89                               |
| Class 10.B                    | 59.89                               |
| Class 11.A                    | 100.00                              |
| Class 11.B                    | 100.00                              |

The IFRA Standards regarding use restrictions are based on safety assessments by the Panel of Experts of the RESEARCH INSTITUTE FOR FRAGRANCE MATERIALS (RIFM) and are enforced by the IFRA Scientific Committee. Evaluation of individual Fragrance ingredients is made according to the safety standards contained in the relevant section of the IFRA Code of Practice.

For applications not mentioned above a new evaluation may be needed.

It is ultimately the responsibility of the customer to ensure that safety of any final product containing this fragrance by further testing if need be.
